BlueRock Energy Employees Take On Earth Day Events
Weekend-Filled Events to Cap Off with 5K/Half-Marathon Race

Syracuse, NY, April 20, 2017 - [BlueRock Energy](#), an award-winning energy solutions company and their families and friends will participate in several events this weekend in celebration of Earth Day. On Saturday, 23 BlueRock volunteers will join hundreds of representatives from local organizations in the Earth Day Clean-Up taking place throughout Downtown Syracuse. The BlueRock Energy volunteers will clean up the Clinton Square area beginning at 11 am and conclude at 1pm. The event is organized by the Downtown Committee of Syracuse, Inc., a not-for-profit organization dedicated to keeping downtown clean, safe and accessible.

“Our company loves to give back to the local community, and what better way to do that than cleaning it up with our friends and families on Earth Day,” said Brittany Murphy, BlueRock Energy’s social media coordinator and one of the many volunteers who will be taking part in this weekend’s activities. “We’ve been in our new downtown office for about a month now, so we felt this would be a great opportunity for us to help keep our neighborhood clean.”

In addition to volunteering for the Earth Day Clean-Up, 16 BlueRock Energy representatives will be participating in the Earth Day Half Marathon and 5K Run on Sunday, April 23, presented by Willow Health and Wellness Center. The marathon, sponsored by BlueRock Energy, is intended to bring awareness to Earth Day while assisting various programs that help feed the youth of CNY.

“I am very proud of our employees and their families and friends who will be spending personal time doing valuable work for our community,” said Phil VanHorne, CEO and Founder of BlueRock Energy. “The commitment to our community is very important to us as a company. It’s extremely rewarding to see our employees and their friends and families adhere to a similar sense of responsibility.”
